

DLI's Fracking Miner is a platform that makes cryptocurrency mining easy to understand and scalable to thousands of miners, without sacrificing high-performance computing power. Our seamlessly integrated hardware and software is more efficient and faster than any other mining system in existence. Whether you're a novice to blockchain or an enterprise of experts looking to gain an edge, Fracking Miner is the experience for you. Plug, play, and get mining.

The network on which our pools run is a multi-state regional transport and is designed with the highest level of redundancy to ensure the highest level of redundancy and uptime, maximum security, and performance to scale to thousands of nodes per pool.

We use a custom hardware design that is a result of collaboration with our manufacturers at the executive and developer levels which delivers a highly efficient miner that utilizes less power, needs less cooling, and provides more rewards.

Our mining platform has been designed and developed with the following features:

- Up to 30,000+ H/s
- Intel Xeon Phi
- 64 Cores
- Shipped fully configured
- Highest level of redundancy and uptime
- Linux Systems
- Advanced Architectures
- Financial Tech
- Cloud Services
- Mining/Pools

Fracking Miner - \$6,800

- 2U rack Mount Chasis
- ~12,800 hashes per second per server
- +\$450/month per server revenue in the current market*
- ~5 amps @ 208V or 1,300 watts per server
- 4 CPU Nodes each with 64 core CPU
- ~3,200 hashes per second per node on XMR-V8 & Cryptonight Heavy
- 80% efficiency
- ~\$180 per month in power usage

* - Much more revenue per month if you follow our trading recommendations instead of auto selling

Big Fracking Miner - \$11,500

- 4U rack Mount Chasis
- ~30,000 hashes per second per server
- +\$1,200/month per server revenue in the current market*
- ~10 amps @ 208V or 1,300 watts per server
- 1 CPU Node with 10x64 core co-processors
- ~3,200 hashes per second per co-processor on XMR-V8 & Cryptonight Heavy
- 85% efficiency
- ~\$180 per month in power usage

* - Much more revenue per month if you follow our trading recommendations instead of auto selling
